EXPERIENCE

Elevance Health — Front-End Software Engineer (Jan 2023 – Present)
• Built and optimized enterprise React dashboards with real-time API integrations, improving workflow visibility by **15%**.
• Developed modular React + TypeScript component libraries adopted by 5+ teams, improving development efficiency.
• Implemented lazy loading, memoization, and bundle splitting to reduce load times across multiple Angular apps.
• Integrated Genesys Cloud APIs into customer-facing dashboards, boosting call-center efficiency by **25%**.
• Created automated UI tests (Jest + React Testing Library) cutting regression defects by **40%**.
• Collaborated with UX designers to implement accessible, responsive, and consistent UI patterns.

HomElectrical LLC — Front-End Developer (Sep 2022 – Dec 2022)
• Improved SEO, page load, and Time-to-Interactive by **35%** using SSR, caching, and Angular Universal.
• Rebuilt dashboard interfaces using React + TypeScript, speeding up workflows for warehouse + support teams.
• Designed reusable UI components and integrated Node.js/Express APIs for order, payment, and inventory flows.
• Implemented accessibility improvements (WCAG 2.1) and enhanced responsive design across mobile and desktop.

EDUCATION

Georgia State University
Bachelor of Science in Computer Science — May 2022
